DAVA RIZQI PRADIPTA

Dedicated and seasoned web developer with over three years of experience, I bring a wealth of expertise in crafting dynamic and engaging web applications. My skill set encompasses a wide range of technologies, including TypeScript, React.js, Vue.js, PHP, and Next.js, allowing me to create efficient and scalable solutions for clients and users alike.

About Me

My passion for clean and maintainable code, coupled with a keen eye for user experience, drives my commitment to delivering exceptional results. With a strong foundation in front-end development using **React.js** and **Vue.js**, I've built responsive and interactive interfaces that enhance user engagement and satisfaction.

My Skills

Education & Employment History

● Born 9TH September, 1998

● Education
○ Employment

● 2016 | **Gunadarma University**

During my college years from 2017 to **2020**, I consistently achieved academic excellence with a GPA of **3.85**, graduating **cum laude**. I was an active **senior assistant in the Informatics System Laboratory**, showcasing **leadership** and **teamwork skills**.

○ 2018 | **DITAMA INTI DIGITAL | PART-TIME**

Since **July 2018**, I gained valuable experience as a **part-time frontend developer** and **UI/UX** designer at my lecturer's **software house and multimedia office**. I primarily worked with **Vue.js** and **Laravel**, while utilizing CSS frameworks such as **Tailwind** and **Bootstrap**. Additionally, I engaged in **UI/UX** design using **Figma**, contributing to the development of dynamic and user-friendly web solutions.

○ 2020 | **MAGNUS DIGITAL INDONESIA | FULLTIME**

In **October 2020**, amid the pandemic, I embarked on my career journey as a **full-time frontend developer** at a **digital marketing agency**. Working with clients spanning the banking, ministry, finance, and brand sectors, I honed my skills and made a **significant** impact. **From 2020 to August 2022**, I served as a frontend developer, specializing in **Bootstrap, Tailwind, jQuery, React, and Nuxt.js**.

Subsequently, I was promoted to a **fullstack developer** role, where my focus shifted to **PHP with Laravel and CodeIgniter frameworks**, alongside **MySQL as the DBMS**. In February 2023, I achieved another promotion, this time as a **senior fullstack developer** **leading a small team** until my departure in **July 2023**.

○ 2023 | **PT NUSANTARA SEJAHTERA RAYA (XXI) | FULLTIME**

In **July 2023**, I joined the largest cinema office in Indonesia as a **Frontend Developer** with a primary role in rejuvenating the **Digital MTIX Web App**. My focus centered on leveraging **TypeScript** and **Next.js** for the development, introducing a new ticketing flow, and integrating a food order feature according to the business plan.

I collaborated seamlessly with cross-functional teams, including product, design, copywriting, DevOps, and backend. Our **agile** project management approach, supported by **Atlassian** products like **Confluence** and **Jira**, facilitated efficient **teamwork**. I ensured **code quality** through **GitHub** with **Pull Request** and **Code Review** systems while implementing a **UI based on Figma with a design system**.

My proficiency in **PHP** enables me to develop robust server-side applications and APIs that power the functionality of web applications. Additionally, I've leveraged **Next.js** to build server-rendered React applications, optimizing performance and SEO for clients' projects.
